

First Aid	Yes	No
Do you know:		
Three A's of an emergency response?		
When to call EMS?		
How to perform a victim assessment?		
How to respond to head-neck-spinal injury?		
Care for an injured or ill child?		

If you responded “Yes” to three or more questions, you have a good knowledge of First Aid techniques.

If you responded “No” to three or more questions, you, your employees or designated responders may benefit from a skills update and certification or re-certification sessions. Don't hesitate to reinforce skills that will help to save lives and reduce your company's liability.
