

# Strategic Organizational Leadership!

**Program Description:** Leadership begins with someone willing to challenge themselves to reach higher levels, create new molds and models and reinforce the value of continuous learning and improvement. Without dynamic leadership, the way we do things today will ensure that we will do the same things, in the same way, tomorrow. To grow, emotionally, spiritually, and skillfully, we must look inward first to determine who we are so that we may identify the innate leader within each of us. From that point, we can improve upon inherent traits and talents and address ways to tap skills and abilities that are more difficult to use. Looking up to known leaders and identifying their profile can give us a roadmap in determining the composite of our own leadership skills. This program is intended for anyone wishing to improve their leadership skills for personal, community or business purposes.
